## // SUMMARY

I'm a front-end developer with 3 months of experience in building web application (Angular, ReactJS), from practical knowledge in programming environments.

I am willing to learn new technologies, improve the level and create quality products that help everyone's work. I like working in groups because I can learn a lot of new knowledge also other skills from the members.

I learnt at Cybersoft Academy . And I have developed a project with Angular 6: Buy movie tickets online and ReactJS: Building website manage courses and users
